A Song Somewhere.

A Song Somewhere.

There is ever a some somewhere, my dear;
There is ever a something sings alway;
There's the song of the lark when the
skies are clear.
And the song of the thrush when the
skies are gray.

The sunshine showers across the grain,
And the bluebird trills in the orchard
tree:

tree;
And in and out, when the caves drip rain
The swallows are twittering ceaselessly.

There's ever a song somewhere, my dear, In the midnight black or the midday

In the mining the blue, blue, blue, the robin pipes when the sun is here, and the cricket chirrups the whole right through.

The buds may blow and the fruit may

And the autumn leaves drop crisp and But whether the sun or the rain or the

snow,
There's ever a song somewhere, my
dear.

There is a song somewhere, my dear, Be the skies above or dark or fair; There is ever a song that our hearts may hear— There is ever a song somewhere, my dear—

There is ever a song somewhere!

Colonel Nichols will receive many hearty congratulations on his return to Lexington with his bride, which will be on Saturday, when they will occupy the home of the groom on the Avenue. At the time of the marriage, Mrs. Rust was a visitor at the home of her son-in-law, the Rev. Norris W. ### A PORTRAIT

By CAROLINE DUER.

Caroline Duer is a native and resident of New York City. She is one of the authors of "Pooms by Caroline and Alice Duer," published in 1896.

MAN more kindly, in his careless way,
Than many who profess a higher creed;
Whose fickle love might change from day to day,
And yet be faithful to a friend in need;
Whose manners covered, through life's outs and ins, Like charity, a multitude of sins.

A man of honor, too, as such things go;
Discreet and secret—qualities of use—
Selfish, but not "alf-conscious, generous, slow
To anger, but most ready in excuse.
His wit and eleverness consisted not So much in what he said as what he got.

His principles one might not quite commend, And they were much too simple to mistake;
Never to turn his back upon a friend.
Never to lie, but for a woman's sake,
To take the sweets that came within his way,
And pay the price if there were price to pay.

Idle, good-looking, negatively wise, Lazy in action, plausible in speech; Favor he found in many women's eyes, And valued most that which was hard to reach. Few are both true and tender, and he grew, In time, a little tenderer than true.

Knowing much evil. half-regretting good, As we regret a childish impulse—lost, Wearled with knowledge best not understood Bored with the disenchantment that it cost: But, in conclusion, with no failings hid;
A gentleman, no matter what he did.

(Special to The Times-Dispatch.)

WASHINGTON, D. C., Nov. 19.—Sena-tor and Mrs. Thomas S. Martin, of vir-ginia, have returned from their coun-

on many pleasant occasions this winter. Her many friends here in Washington

are glad to know that she has eight seasons in Washington ahead of her. Mrs. Martin is very popular socially, being noted for her vivacity as well as for her

congressional contingent, and is one of the most delightful hostesses in Washington. Her home in Q Street is the scene of many enjoyable gatherings of Southern women. And there are many northerners who likewise enjoy her hos-

November 22d-25th, was organized twenty-four years ago in Boston, the prime mover in the organization being the the University of Chicago, and for years past one of the most active members of the association. Its objects were the ards in schools for women, and, last, but not least, bringing college bred we-

men together for social intercourse.

The work of the body has been good. The general association supports a European fellowship, by means of which a woman does research work in one of the European centers each year. The present holder of the fellowship, Dr. Alena Blount, is in Europe completing a work of great value, which scholars abroad are expecting with much eagorness, an Oxnomasticon of Arthurian Romances. Its preparation required a familiarity with all the languages of Western Europe during the Middle Ages, including Icelandic and Celtic, but Miss Blount has already done all the necessary reading and accumulation of facts, and is now doing the final work.

The association gives one fellowship in connection with the Woman's Educational Association, and assists in the support of the American Woman's Table at the geological station in Naples. The Southern New York branch has alded four girls at college—one at Vassar, one at Cornell and two at Smith.

Valuable work has been done by branches in collecting statistics regarding the result of the ligher educational legislation, in promoting the study of child development and home economics, The work of the body has been good

ociological endeavor. The standards for membership in association are very high, and, so far, no Southern institution has fulfilled all no Southern institution has fulfilled All requirements. Three years ago three women, two of whom were members of the Association of Collegiate Alumnae, saw that while the standard of the A. C. A. ought not to be lowered, there were yet a great many college women in the South who ought to be organized for educational work. 'A number of these had been educated at Eastern and Western colleges, and were eligible to membership in the A. C. A. Others had been trained at certain Southern institutions. ARE CHARMING HOSTESSES

Mrs. Martin is one of the most charming ladies of the senatorial circle, and will be the hostess all the schools recognized by the A. C. A. list, Battimore Woman's College, Sophia Newcomb, Randolph-Macon Woman's College, Vanderbilt University and the Universities of Tennessee, Mississippi, Alabama, North Carolina and Texas. The A. C. Moore, of St. Louis, signified to Miss Parrish that an invitation to meet in the South would probably be accepted by the A. C. The educational conference to be held at Agnes Scott on the evening of Thursday, November 23d, will be participated in by representatives of the Association of Collegiate Alumnae, the Southern Association of Collegia Women and the General Federation of Women's Club, and all educators present will be invited to the pivileges of the floor.

Both Atlanta and Athens are doing full justice to the justly earned reputation of the South for liberal hospitality, and the large number of pleasant social functions offered will give ample opportunity for the social intercourse, which is one of the objects of the association.

Other counties already swarming with strange people, who are working in mines and forests, are equally dependent on this kind of work. We entreat pastors and superintendents to make our appeal effective by introducing this feature of giving into the schools, with special reference to the twenty counties that are held down by the doctrine of fatalism and are dependent for evangelization on the work we are trying to do from house to house, in the Sunday-school and by the distribution of the Scriptures and religious literature.
